

**POWER
FOR THE
REST OF
US**

IF YOU HAD POWER, WHAT WOULD YOU CHANGE?

Climate change

Free healthcare

Systemic racism

LGBTQ and Women's
Rights

Affordable
groceries

Better Education

When you think of people who are
powerful, who do you think of?

Where does their power come from?

SPIDERMAN → RADIOACTIVE
SPIDER

LUKE
SKYWALKER → ALIEN-BASED
MAGIC

the PRESIDENT,
POLITICIANS → POLITICAL PROCESS,
MILITARY FORCE

BEZOS, MUSK
ZUCK, ETC → MONEY

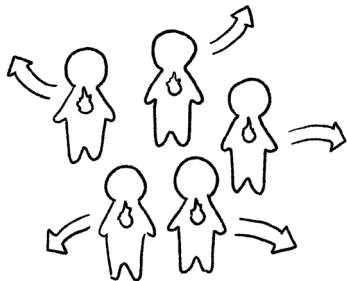

For most of us, these paths to power are
closed.

But that doesn't mean we are powerless

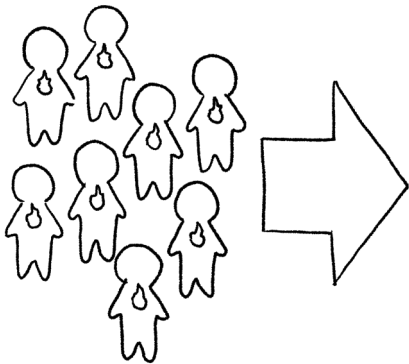

We all have some intrinsic power: from our bodies, from our voices, from the people who love us and support us.

Normally, we point this power in many different directions.

But if we point this power in the same direction, it becomes a force that's impossible to ignore.

Think about your own time, energy, and power. How are you spending your time? Where does your energy go?

Here's the secret: All those powerful people from the first page (the real ones), they use the same power as us. They just use tricks to get it:

- Paying money to persuade people to run their businesses
- Mass media to promote ideologies they benefit from
- Stories that make it seem like there's only one path to power, and they're the ones who deserve to take it

How does your power contribute and intersect with those powerful people's?

This is not something to be guilty about: it's an opportunity.

Where your power benefits the powerful,
you have **LEVERAGE**.

Withdrawing your power alone, they have
enough power to replace you or retaliate.

But if we coordinate and all pull together,
they will fall.

If we all build together, we can build
anything.
